

SUMMARY

Lead Product Designer with 6+ years of experience owning complex B2B SaaS and enterprise products from problem framing and discovery through prototyping, validation, and production. Experienced in design systems, component libraries, complex workflows, and scalable product experiences, partnering closely with Product and Engineering teams. Strong in Figma, design engineering collaboration, rapid prototyping, and AI-assisted design, with a focus on improving adoption, usability, consistency, and delivery efficiency.

EXPERIENCE

Dayspring Technology, Lead Product Designer (May'2023 – Present)

- Owned **end-to-end product design** for multiple SaaS platforms, from problem framing and discovery through interaction design, prototyping, validation, and production.
- Used **customer insights, behavioral data, business goals, and engineering constraints** to define product problems, prioritize opportunities, and shape scalable solutions.
- Redesigned legacy products including **Report Pundit and Data Export**, improving usability and reducing support workload by **22%** while improving merchant satisfaction.
- Owned the redesign of the **report creation workflow**, using user research, interaction redesign, and iterative usability validation to reduce user drop-off from **77% to 44%** and improve feature adoption.
- Partnered with **Product Managers, Engineers, Customer Success, and business stakeholders** throughout discovery and delivery to align product decisions with customer needs and business outcomes.
- Mentored **2 product designers and 3 front-end designers** through design reviews, guidance, and collaboration, maintaining design quality and consistency across projects.
- Pioneered an **AI-assisted design workflow** using structured **design-system documentation** and Claude to rapidly generate production-ready HTML prototypes, reducing designer–developer handoff cycles

Spinach Studios, Senior UI/UX Designer (Jan'2021 – May'2023)

- Led the rollout of **Prudential's enterprise-wide design system**, improving consistency and collaboration across multiple products and teams.
- Created the MVP for Trace+, an **HR SaaS platform**, from stakeholder interviews and user research through information architecture, wireframing, rapid prototyping, and delivery.
- Redesigned **Pay with Ring mobile app using a new design system**, improving design handoff speed by **3x** and increasing onboarding by **62%**; the work was nominated for the UX Design Awards Berlin 2024.
- Redesigned Club Mahindra's booking experience, improving discoverability, usability, and personalization.
- Collaborated closely with **Product and Engineering** throughout problem discovery, design, prototyping, and delivery, translating user and business needs into **scalable product experiences**.

Larsen & Toubro Limited - Project Engineer (Aug'2018 - Sep'2020)

- Directed **cross-functional teams** and **stakeholder communications** for large-scale engineering projects, ensuring **on-time delivery** and **customer satisfaction**.

EDUCATIONAL BACKGROUND

YEAR	DEGREE / CERTIFICATE	INSTITUTE	% or CGPA
2018	B.Tech (Production Engineering)	NIT Jamshedpur	8.67/10
2013	Class XII (CBSE)	Army School, Ramgarh	88.6%
2011	Class X (CBSE)	Army School, Ramgarh	10/10

SKILLS

- Design/Tools:** End-to-End Product Design, Product Discovery, UX Strategy, Interaction Design, Information Architecture, Wireframing, Prototyping, Visual Design, User Research, Usability Validation, Behavioral Analysis, Data-informed Design, Design Systems.
- AI Workflow:** Prompt engineering for UX, design-system-driven HTML generation via Claude, Claude code
- Leadership :**Product Strategy, Team Mentorship, Stakeholder Management, Cross-functional Collaboration
